

Technocracy, Transhumanism and NWO

(March 15, 2024)

It is impossible to avoid all the signs occurring throughout society. These signs, precipitating changes for the worse globally, are at our doorsteps. If I didn't think they were not actually affecting change, I wouldn't bother to highlight them. Unfortunately, it is the exact opposite. These changes *are* occurring, creating a more favorable situation globally for the technocrats to continue their push.

The substack *2nd Smartest Guy in the World* (2SGW) offers information that provides more of the global technocracy currently being built.[1] It's hard to disagree with him and he provides documentation for his claims. It is true that what we are seeing in society are deliberately orchestrated by technocrats in order to gain control over society, including America. He uses NYC as just one example where because of the tremendous uptick in violent crime, national guard, police and others are now in the subways with guns, searching people's bags before they board their trains to work or wherever. I can imagine people saying, "Well, if this is what it takes to keep us safe, I'm all for it!" as so many did shortly after the Patriot Act's passage with the expansion of TSA and Homeland Security. We all know what it's like to go through the airport these days. You're guilty until a TSA agent is satisfied that you're not through additional searches that they now do, in spite of the 4th Amendment.

But why is crime so high in NYC? Two reasons. First, unprecedented numbers of people illegally coming to America, many of whom are already hardened criminals in their home countries. Second, woke, Soros-backed district attorneys demanding that apprehended criminals be released, often without bail. These same DAs were part of the defund the police movement. Gosh, it almost seems as though it's been done purposefully in order to social engineer...I mean *change* society.

The 2SGW also notes inconvenient truths regarding CV, NY's Gov Hochul, 15-minute cities, future lock-downs, businesses fleeing NYC and much more. This all appears to be a major push by powerful people behind the scenes to overturn the way society has existed for decades and decades to establish the Great Reset by any means necessary. They've started in earnest with Blue States and Blue Cities as we see, which may eventually spill over to conservative areas.

2SGW also talks about Trump's wall, which was not only never finished but was fairly easy for people to climb over it. And don't forget, Trump continues to believe he performed a miracle with the warp speed vax that was first made available to the public, then *mandated*. He appears clueless to the problems associated with it.

But numerous medical doctors have been calling the mRNA jab out. In an interview with Tucker Carlson, Dr. Pierre Kory offers his medical opinion. He believes "long COVID" is actually "*vaxxed* COVID." [2] We personally know people who got the jab who are continually fighting off something but never actually regain full health. Some highlights from the interview.

If you look at my practice, maybe 1200 patients: 70% are long vax, not long COVID, meaning all of their issues, the syndrome, started after the vaccine, not COVID.

It's my kind of belief, looking back, that [safe and effective] was a predetermined conclusion. There was no data to support that, but it was agreed upon that it would be presented as safe and effective. And for those of us who were a little bit more skeptical, more data driven, we saw that it was based on really no data. And the data started going sideways, south, but the refrain got louder and more pervasive, and then they doubled down. They

started to demonize the unvaccinated.

2SGW also speaks of the growing problems of AI and how it *will* rob people of any privacy, giving greater control to technocrats. AI will be used to collect every bit of data on every person; store it, catalog it and report it to use against us. *Colossus: The Forbin Project* (1970),^[3] shows two supercomputers (one from USA and the other from Russia). They are allowed to begin communicating and eventually take over the world. No one has privacy anymore. The computers call the shots. It was far-fetched then, but is becoming reality today because of all the "digital worlds" inside our phones and computers.

2SGW also talks about Elon Musk and how he believes Musk is part of the technocrat army of movers and shakers. He sets himself up as a guy who totally supports free speech, but in reality, does not. I've long distrusted Musk because "X" is no more about actual free speech than China is. I'm still horribly shadow-banned on "X" and I don't see that changing so Musk is a hypocrite. I've come to the point where I don't really care either. I'm rethinking all social media involvement except for Telegram and substack for now.

In other article with particularly interesting revelations, author James Roguski on his substack highlights what he believes are completely unacceptable amendments to the World Health Organization's proposed treaty.^[4] He notes, "*I have FINALLY obtained an unofficial document that appears to be an updated version of the proposed amendments to the International Health Regulations. Please read it and share it far and wide.*"

As seen in the image from his substack, there are 10 issues that are being tacked onto the original WHO treaty proposal that will simply enslave people. As you read through those issues, how can anyone not see them as increased tyranny to fascism/Communism? All this because of "health and safety" while the treaty would derail any constitution or founding documents of any nation that signs onto it, thereby removing that nation's sovereignty. Technocracy is the method toward a one-world dictatorship. It's not about health and safety. It's about *their* control of all of us.

How anyone could think that these 10 issues are *not* totalitarian is beyond me. AI would make it easy to surveil everyone and everything as well, granting exponential power to unelected technocrats.

Just consider the ramifications of #9 and #10; Disclosure of Personal Data and Censorship. Those two areas alone are fascist enough. So, the idea that the authorities could take your personal data and release it to the public? Gee, I can't think of anything going wrong there, can you? Why does anyone think the world needs to know my own personal medical status (in the case of whether or not I've taken a jab or not)?

What about censorship itself? They obviously want every country doing what Canada is doing with respect to "free speech." Canada does not have a 1A but America does. People being able to say what's on their minds freely without repercussions doesn't work for the technocrats who see a world of automatons who simply do what they're told and not think for themselves. People who think critically create problems, like possibly "inciting" an overthrow or some other form of resistance. Technocrats cannot

The Top 10 Issues that are UNACCEPTABLE in the Proposed Amendments to the International Health Regulations

- 1. Three Levels of Fear-Mongering:** (Articles 1, 5, 8 and 12)
Giving the WHO Director General the authority to unilaterally declare an Early Action Alert (EAA) and a Pandemic Emergency (PE) in addition to a Public Health Emergency of International Concern (PHEIC) with absolutely no oversight and no checks or balances on his power is **UNACCEPTABLE**.
- 2. Quarantine:** (Articles 24, 27 and Annexes 4 and 8)
Adding additional threats of quarantine to people who are travelling is **UNACCEPTABLE**.
- 3. Documents Required For Travel:** (Articles 35, 36, 37 and Annexes 3 and 8)
Requiring additional health documents such as test certificates in order to restrict one's ability to travel freely is **UNACCEPTABLE**.
- 4. Vaccines Authorized by the WHO for Emergency Use:** (Annex 6)
Requiring "vaccines," especially those that are authorized for emergency use is **UNACCEPTABLE**.
- 5. Making Non-State Actors Comply With Public Health Measures:** (Article 42)
Coercing "non-state actors" to comply with government dictates is **UNACCEPTABLE**.
- 6. Surveillance:** (Annex 1-c-i)
The ongoing and ever-increasing invasion of our privacy is **UNACCEPTABLE**.
- 7. Proliferation of Pathogens with Pandemic Potential:** (Article 44 and Annex 1)
Facilitating the proliferation of pathogens with pandemic potential and their genetic sequence data through a Pathogen Access and Benefits Sharing system is absolutely **UNACCEPTABLE**.
- 8. National IHR Authority:** (Article 4 and Article 44-c)
Requiring that we allocate human and financial resources and adjust our national laws by creating a National International Health Regulations Authority is **UNACCEPTABLE**.
- 9. Disclosure of Personal Data:** (Article 45)
Allowing the public disclosure of private data is **UNACCEPTABLE**.
- 10. Censorship:** (Annex 1-c-vi and Annex 1-5-vii)
Attempting to limit freedom of speech and freedom of expression under the guise of countering misinformation and disinformation is **UNACCEPTABLE**.

RejectTheAmendments.com #RejectTheAmendments

have that so censorship is what's needed so that people will be *afraid* to say anything against the government, just like in China now.

The real bottom line here is that once individual nations agree to the WHO treaty, they come under the collective of the WHO and its tyrannical structure that will force the world to comply with its demands all under the guise of "health and safety." I've included a link to the actual PDF document explaining these amendments in detail.[5] Download it, read it and share it.

Circling back to Patrick M. Wood's book, *The Evil Twins of Technocracy and Transhumanism*, we see all of this that very clearly. I've gone over some of the info in that book and now's a good time to include more. Wood sources brothers Aldous and Julian Huxley. The former's book released in 1932, *Brave New World* highlighted technocracy then. His brother Julian's book, *New Bottle for New Wine* also spoke of a type of *transhumanism* where human beings would be able to move beyond what they are now to something superior. Wood also quotes futurist Max Moore from his 1994 essay.

No more gods, nor more faith, no more timid holding back. Let us blast out of our old forms, our ignorance, our weaknesses and **our mortality**. The future belongs to posthumanity.
(Emphasis added)

What it all boils down to is exactly what Satan attempted and has continued to attempt since his own fall. I also note the "sons of God" in **Genesis 6** seemed to be about the same thing. Rather than those "sons of God" being the godly line of Seth (or some other human line), it seems clear that those "sons of God" were angels who were tasked with one thing by God, but chose instead to fall, mate with human women (somehow) and create their own line/offspring.

Wood notes that it was in 1992, the UN Convention on Biological Diversity took place at the same time the Agenda 21 (Agenda for the 21st Century), Conference occurred, in Rio de Janeiro. Agenda 21 was built on "sustainable development," "...a resource-based economic system virtually indistinguishable from the historic Technocracy, Inc. movement." Wood also notes that "*Transhumanism has been hiding in the shadows, coming to light in fits and starts, in both preaching and practice, ever since Julian Huxley first penned the word in his 1957 collection of essays.*"

As I continue researching all of these things, I'm amazed that it goes back as far as it does, long before I was born when it began in earnest in the USA in 1932 and then the year I was born in 1957. Most of these developments occurred in the darkness of privacy and relative insignificance to the planet. It was created and pushed by people who were ignored on purpose so they could work the kinks out without interruption.

The push toward transhumanism using technocracy to get there is really the age old quandary that has perplexed and limited human kind as well as celestial beings who fell from the beginning. Yet, more and more are pushing for a blending of these two evil twins in order to rise above our own humanity in order to live forever. It is Satan's version of the Tree of Life that was originally in the Garden of Eden.

Sadly, most of humanity will be swept along because of their innate abhorrence of everything related to God Himself. The hatred, the rebellion, the lies all lead to the desire to cast off His chains (**Psalm 2**), in order to be "free" of every restraint including our own longevity, is at the root of every problem faced by human beings. This, in my opinion, is what it is all about. Humanity and celestial beings wanting to overthrow God. The attempt happened with Satan (and is ongoing until God shuts him down). Efforts were made in **Genesis 6**, which forced God to destroy all living things except who/what was in the Ark. It

tried to occur in **Genesis 11** with the Tower of Babel. There have been many attempts throughout the ages. Satan has learned from his mistakes and I believe is now at the point where he can taste the coming NWO, over which his spiritual son Antichrist will rule.

Do not comply. To comply means to go along with Satan's NWO. Do what you can to avoid it. Live among society but not be *part* of it, just like our first century brothers and sisters in Christ did as well. Separate yourself increasingly from the snares of this world as much as you can. Do not cave to the fear. Do not cave to the threats. Do so *respectfully*. The truth is that Satan wants us all dead and that is the hidden vision he has provided to technocrats. I refuse to go on their terms.

I firmly believe that Christians who make it a practice to submit to His will, to trust Him for His provision *will* see His miracles in their lives. God *will* provide to those who practice trusting in Him. This is biblical fact.

The Lord is righteous in all His ways,
Gracious in all His works.
The LORD is near to all who call upon Him, to all who call upon Him in truth.
He will fulfill the desire of those who fear (offending) Him,
He also will hear their cry and save them.
The LORD preserves those who love Him,
But the wicked He will destroy. (Psalm 145:17-20)
