

# Revelation 96

4<sup>th</sup> Plēgē

Burning Lies

Dr. Leon L. Sanders

Revelation 16:8-9

# Fourth Plēgē: Scientism as Paganism

- Messenger {Angel} unleashes Fourth Plēgē upon the Sun
  - Angel, under control of the Father, influences the Sun which directly influences Earth
  - So-called *natural* events are not random nor arbitrary (2Pe 3:3-7)
- No gods/goddesses arbitrarily controlling Nature as ancient man believed
  - Works-based beliefs flowing from rejection of God as Lord and Creator (Ro 1:18-28)
  - Science developed to refute paganistic beliefs; substituted scientism {faith} for science
- Modern scientism deems Man as cause of Climate disruption
  - Global heating caused by man-made CO<sub>2</sub> though only 0.04% of atmosphere – Control
  - Ignores Sun's energies as main influencer of climate, weather and tectonic phenomenon

# Fourth Plēgē: Sun – Earth interrelationship Apparent

- Great Tribulation (GT) began with Sun's MicroNova
  - Earth also underwent fluctuating magnetosphere D/T pole shifts/flips
  - Process did not simply occur and return to normal; period of diminishing oscillations
- Event *appears* natural as spirit beings not observable: Outside of Science
  - Not repeatable and without preparation, causation not measurable
  - Atmospheric protections previously diminished are again diminished
- Intergalactic/solar winds and solar CME effects more strongly felt
  - Today's sun burns are *mild* radiation skin burns; these are more severe
  - Ionizing radiation will blast through many buildings; indirect exposures

# Fourth Plēgē: Reality Made Apparent

- People realize source of this Plēgē: God
  - Realize causation is not arbitrary *natural* processes, not science; challenges scientisms
- Recognize God as causal agent: Faced with choice
  - Repent and be saved (Lk 17:11-19)
  - Curse God and die (Job 2:9; 6:8-9)
- Like Job, they choose to blame God
  - God gives them over to their choice; to remain in their sin (Ro 1:18-28)
  - They declare God *evil*, making them *good*, for forcing them to face their sin (Job 40:7-8)
  - This is the fundamental illogical Rescuing Strategy of sinners

# Fourth Plēgē: Why the Sun?

- Sun is the primary source of light, heat and other energies for growth (Ge 1:14-19)
  - Metaphor for spiritual Truth of eternal life in Christ (Mal 4:2; Mt 6:22-24)
- Man followed his own *Truth*; The Delusional Lie they could be as God (Ge 3:5; 2Th 2:3-12)
  - God directly challenged Job over his knowledge of Nature and control thereof
  - Now God directly challenges Lost with *slight* fluctuations of Sun-Earth inter-balance
  - Metaphor of Man's Lies which burn, harm the Lost; greater the belief, the worse the burn
- Man cannot *control* energies; directed by angels as the Father wills
  - Reveals Man's dependence on Father whom they reject; they want to be potters (Is 29:15-16)
  - Their Lie burns their spiritual conscience revealed by the burning their skins (Pr 6:27-28; 1Ti 4:2)

# Fourth Plēgē: Oh, Sinner Man, Where to Hide?

- First Four Plēgēs
  - One – Skin breakdowns: Cannot protect one's health
  - Two/Three – Blood to drink: Answerable for spilling blood of believers
  - Four – Sun scorched: What they hold true is what harms them
- These words are given so we might understand and believe in Lamb (Jn 20:31)
  - These unbalancing forces at work today allowing people to see, read and believe (Mt 7:7-11)
  - Sun's cyclic Grand Solar Minimum coupled with Earth's magnetic pole shift
  - Sun's CME and plasma radiations influencing earthquakes, volcanoes and weather
- Will you believe This Day before time comes when you will not? (He 4:1-13)
